

Volunteer Income Tax Supplemental Questionnaire

The stimulus payments received in 2020 and 2021 are not taxable, however, the IRS is using FY2020 taxes as a tool to reimburse those who didn't receive a stimulus or didn't receive the full amount. The IRS will reject a tax return if a stimulus payment was issued and not reported in your FY2020 tax return. Please ensure that you check your bank statement and/or check stub for exact stimulus payment amount.

1. Did you receive a stimulus payment in 2020 or 2021?
 - A. How much did you receive for the first payment (first payment was \$1,200 per adult and \$500 per child, if you received less you will receive a tax credit for that amount)?
 - B. How much did you receive for the second payment (second payment issued after December 2020 was \$600 per adult and \$500 per child)?
2. How many PFD's did you receive in 2020 (please include all household members including children)?
